## WHAT IS ROYALTY NFT ?

### ROYALTY NFT PROGRAM

**Royalty NFT** is a status-based program offering exclusive bonuses tied to **six NFT levels**. Rewards are distributed based on the total turnover of upcoming **Web3X projects**, including Matrix, NFT and future programs.

Each **Royalty NFT** is minted using **Energy Tokens**. Energy Tokens can be earned through referrals or by **upgrading Packages / Level / Slots** within the **M & N program** is designed for proactive believers who actively support and grow the **Web3X Ecosystem**.

**ROYALTY NFT**

# WHAT ARE THE BONUSES of **ROYALTY NFT**?

The greater the status of your NFT, the bigger bonus you'll get. There are **6 different NFT** levels

**Royalty NFT** incentives are a percentage (share) of overall product turnover.

Each **Royalty NFT** member gets bonuses, the amount of which is determined by their level of **NFT status**.

The overall amount of bonuses can increase in correlation with the rise in **Royalty NFT** status. .

# WHAT IS ENERGY TOKEN? continued

The earliest participants Can Receive Max **Energy Tokens**

Many Volume-Generating Activities Inside The **Web3X Eco-system** will provide **Energy Tokens** for The **NFT Royalty** Program.

Initially, charging **NFT** is simple, but its complexity will gradually increase as the amount of **Energy Tokens** remaining to be distributed decreases.

In the Pre-Launch Stage of each program, there is a limited opportunity to acquire **Energy Tokens** since only a limited percentage of Total Supply is assigned to each program.

# WHAT IS ENERGY TOKEN ?

After the initial distribution of the first **50%** of the total supply, **Energy Tokens** will be emitted at a **1:1 ratio**. Once this phase is completed, the remaining **50%** of the supply will be distributed at a **1:2 ratio** until the total supply is fully released.

This represents a **1× rate** initially, followed by a **2×** lower emission rate compared to the previous **Energy Tokens**—still maintaining a relatively high coefficient.

# JUST CREATOR

## JUST CREATOR NFT IS A BASIC NFT: LEVEL 0

By charging the NFT with **Energy Tokens**, you achieve status(es) that provide you with income from the **NFT GLOBAL REVENUE POOL** (From Our existing & Upcoming Marketing Plans : **Matrix & NFT (M & N)**, Gaming, Metaverse and All Upcoming Eco System Projects ).

1. **Just Creator NFT** has no status and, therefore, does not receive a share from the turnover.
2. In order to start receiving income from the revenue, your NFT should reach at least the first status which is **Genesis NFT (Level 1)**.
3. You will need 50 **Energy Tokens** to reach **level 1 (Genesis)**, unlocking the Genesis NFT Status.
4. **Energy tokens** are awarded for different types of activities in Web3X Eco-System Programs.
5. In the future, there will be plenty of opportunities to accumulate Energy Tokens, but charging your NFTs will become harder
6. After you charge the **Just Creator NFT** to **1st status Level - Genesis**, the system will mint a new **Just Creator NFT** for you

The first participants receive **Energy Token** for participating in our Programs, which can be used as Energy.
